Instructions

Take your time in answering the questions below. It's best to relax and focus clearly on what you want to attract as you answer the questions. Remember, you can attract *ANYTHING*. Don't hold back!

1) What are the qualities, characteristics and attributes of my Soul Tribe?

Your "Soul Tribe" are those you want to work with who are on the same life path as you are. Write words that reflect their personality, what resources they have, what problems they have, how they respond to you. Describe them here in as much detail as possible. Don't be logical. Come from the gut!

2) What makes me and my Soul Tribe tick?

Another way to put this is, "what is my true life purpose and the life purpose of my Soul Tribe?" What is your life's passion? What is the core point of attraction between you and your Soul Tribe? Describe it here as concisely and to the point as possible.

3) What do I want my Soul Tribe to expect from me?

If you have ever felt at the mercy of other people's expectations, this is your chance to be proactive and determine what you want others to expect from you. Write down the offerings you want to deliver, how you want to be perceived, what you want to achieve, and what you want your days to look like.

4) Who am I willing to be to attract what I desire?

For each item under number 3 that you have not yet 100% attracted, write it down here again. Then ask yourself, "who am I willing to be to attract this?" What word or phrase describes the way you would be if you attracted this? Write it down next to the item you want to attract. Now go forth and be that quality and watch as what you desire is drawn to you.

5) What are my next Attractive Actions?

What are the actions you are willing to take to attract what you desire? Take note of what ideas you have that are Attractive Actions vs. those that are Dazzling Distractions. Attractive Actions move us forward on our life path while Dazzling Distractions take us away. Write them in the columns below. Start taking one Attractive Action at a time.

6) What are my Signs of Land?

It is important to take note of what we are attracting on a regular basis. When a sailor approaches land from sea, there are signs of land long before actual land is sighted, like certain weather patterns, or particular birds, sea mammals, and plant life. Similarly, when we set course for what we desire in life and business, there are signs along the way that what we asked for is coming. Perhaps you asked for clients who are fun and someone calls from a game company, or you have asked for a more spiritual experience of business and you meet an inspiring spiritual teacher at a party. Taking note of these "Signs of Land" will help you to acknowledge your progress and flow toward the realization of your dreams.

Your Soul Tribe Attracting Marketing First Steps

The first step to creating marketing that attracts your Soul Tribe is to create a list of words that reflect your essence. Using the area below, write down a list of “Tick Words” ie words that describe your passion and a list of “Offering Words” ie words that describe your services, offerings and/or results and put them in the right column of the page. Combine these words to create great titles. Use these words in your copy to express your essence and what is most important to you.
